

THX certification of the Stream810 module is an assurance that it meets the highest standards of quality and hardware performance and further enhances the platform's ability to assist brand manufacturers in developing high performance cinema and audio products that improve customer listening and experiences beyond measure.

Possible Product Variations:

- Audio streaming clients
- Connected Soundbars
- Audio/Video receivers
- Active speakers with streaming
- Home Theatre
- Distributed or central server based multi-room systems with multiple audio sources and sinks
- Voice Assistant Products

How is this certification achieved?

Stream810 was rigorously tested by THX engineers against a strict criteria, in order to evaluate, characterise and document audio performance, features and overall functionality.

- Throughput Latency of less than 5 ms.
- Digital Output level
- Harmonic Distortion plus noise
- Frequency Matching
- Phase
- Subjective Listening with various content at different encodes in different scenarios with adjacent network traffic. Stream810 performed very well with minimal dropouts and no audible noise or distortion

About THX;

Founded by legendary filmmaker George Lucas in 1983, THX Ltd and its partners provide premium entertainment experiences in the cinema, in the home and on the go. Over the past thirty years, THX has expanded its certification categories beyond studios and cinemas to consumer electronics, content, automotive systems and THX Live!, a live-entertainment certification program.

Today, THX continues to redefine entertainment, providing exciting new technologies and assurance of experiences with superior quality and high performance that guarantee an artist's vision is truthfully delivered to audiences worldwide.
