

StreamUnlimited is happy to assist customers in integrating wireless and wired network technologies to create connected products. Our expertise - built over 2 decades of working on wireless products - is available to our customers.

As an embedded systems design-house and producer of a range of embedded hardware modules we are experienced in all aspects, including

- ▶ **Hardware development** (RF frontend development and optimization)
- ▶ **Software development** (Linux drivers, middleware and application, RTOS)
- ▶ **EMC legal pre-compliance and compliance testing** (e.g. RED, FCC, IC)
- ▶ Specific **certifications and listings** (Wi-Fi, Bluetooth)
- ▶ Selection, integration and verification of **embedded antennas**
- ▶ **Development of automated test equipment** to simulate disturbances, perform frontend calibration and verification
- ▶ Interoperability **testing and release**
- ▶ **RF performance testing** in our anechoic room
- ▶ **Handling of industrialization** in Eastern Europe or Asia

The wireless eco-system of StreamUnlimited

StreamUnlimited, founded in 2005, is a supplier of software solutions and hardware modules for connected audio and IoT products, with over 120 employees at office locations in Vienna, Bratislava, Iasi, Shenzhen, Japan and Santa Clara, CA. As the de facto global system integrator offering its own IP and engineering services, StreamUnlimited development partnerships include all major semiconductor companies and technology providers in the consumer electronics and IoT channel. StreamUnlimited works with a global cross-section of high-end audio, CEDIA-channel, premium and mainstream consumer electronics and smart home manufacturers.
