

### Build Bluetooth/AirPlay Audio combo speaker with:

- ▶ Dual-band WiFi 6 network connectivity
- ▶ Bluetooth A2DP/LE Audio sink functionality
- ▶ Additional Siri and HomeKit extensions for HomePod owners
- ▶ BLE for Siri-specific device arbitration

### Siri Voice Assistant

Apple and StreamUnlimited are working together to support projects with integrations of Apple Siri, as a valuable accessory to the millions of HomePods in the marketplace. StreamUnlimited supports OEM discussion with Apple, hardware module selection and software integration through to productization, testing, and certification.

Apple Siri, with proprietary wake word AEC technology, provides the ability to control AirPlay audio, smart home automation with HomeKit devices and classic voice assistant tasks such as scheduling, timers and weather updates.

- ▶ HomePod mini was the single best-selling Smart Speaker for 1Q22 (4.5M units)
- ▶ Leverage millions of Homepod units, to pair with your smart device for Siri usage
- ▶ StreamUnlimited is the only system integrator working with Apple on Siri enablement for 3rd party audio devices

**StreamUnlimited**, founded in 2005, is a supplier of software solutions and hardware modules for connected audio and IoT products, with over 120 employees at office locations in Vienna, Bratislava, Iasi, Shenzhen, Japan and Santa Clara, CA. As the de facto global system integrator offering its own IP and engineering services, StreamUnlimited development partnerships include all major semiconductor companies and technology providers in the consumer electronics and IoT channel. StreamUnlimited works with a global cross-section of high-end audio, CEDIA-channel, premium and mainstream consumer electronics and smart home manufacturers.
