

StreamUnlimited stack supports it all.

Matter Device

With StreamUnlimited your product can be controlled by any ecosystem. You can use it in smart homes, retail, industry, healthcare and so much more!

Matter Controller

With us your product will be the control point. Get all the data. Enable your customers to enjoy advanced controls and automatizations. Even voice commands are possible.

Matter Bridge

With StreamUnlimited you can build a bridge to connect Matter and any IoT protocol.

Border Router

With StreamUnlimited you can link together all the Matter supported networking technologies.

Matter Plug-In

StreamUnlimited supports Matter through its ever growing plug-in family. Matter (previously known as Project CHIP) is a single, unified, application layer connectivity standard designed to enable developers to connect and build reliable, secure IoT ecosystems and increase compatibility among Smart Home and Smart Building devices.

StreamUnlimited, founded in 2005, is a supplier of software solutions and hardware modules for connected audio and IoT products, with over 120 employees at office locations in Vienna, Bratislava, Shenzhen, Osaka and San Francisco. As the de facto global system integrator offering its own IP and engineering services, StreamUnlimited development partnerships include all major semiconductor companies and technology providers in the consumer electronics and IoT channel. StreamUnlimited works with a global cross-section of high-end audio, CEDIA-channel, premium and mainstream consumer electronics and smart home manufacturers.
